## MESSAGE FROM THE CHAIR

Fred W. Roper

It is hard to believe that annual conference time is here once again! I urge each of you to plan to be in Seattle and to join in the events that the Division will be sponsoring or co-sponsoring. Pat Murphy and the Seattle Program Committee have put together an excellent program. The co-sponsored sessions give us an opportunity to network with other divisions. In addition to the program sessions, let me urge you to attend three important functions.

From 10:00 am to 12:00 noon on Sunday, June 8, we shall begin conference with a joint breakfast with our colleagues in the Chemistry Division and the Environment and Resource Management Division. This informal breakfast will provide us with an opportunity to visit with colleagues in BSD and to meet new friends from the other divisions. This is an informal event without a formal program.

Later on Sunday, the first meeting of the Medical Section of BSD will be held at 1:30 pm. Nancy Bryant, the current chair, and David Duggar, the chair-designate, will get the work of the new section off to a great start.

On Tuesday, June 10, we shall hold our annual business meeting and breakfast at 7:30 am. Through the generosity of our sponsors, breakfast tickets are \$10. Two very important pieces of business will occur at this meeting. The proposed name change of the Division and revised scope note will be considered. All affected divisions were contacted, and they

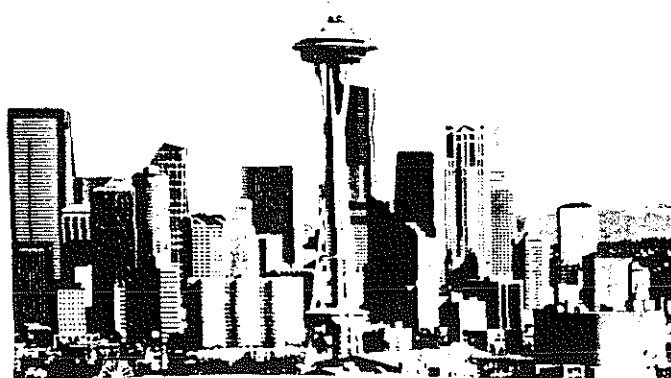

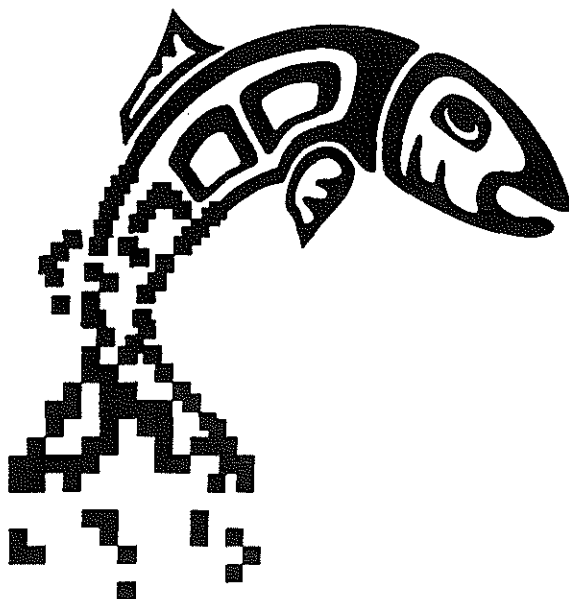

Continued on page 2

Continued from page 1

have given their endorsement. The SLA Bylaws Committee, chaired by Eleanor MacLean, has reviewed and endorsed the changes. The Winter issue of BIOFEEDBACK has an excellent discussion of the proposed changes by Lucy Rowland, Chair of the Bylaws Committee.

The other important piece of business will be ratification of the Bylaws Changes that were enclosed with your last ballot. Our bylaws state that any changes must be made at the annual business meeting, so we will have an opportunity to vote on the changes proposed by the Bylaws Committee at the meeting. Lucy has provided us with a rationale for the changes in this issue of BIOFEEDBACK. We hope to have a good turnout for the meeting!

This is my last chance to send you a message as Chair. Thank you for giving me the opportunity to work with you. I look forward to our continued involvement in the best division in SLA!

**Biofeedback**

## NEW DIVISION OFFICERS FOR 1997/98

Jo Anne Boorkman  
Chair, Nominations and Elections Committee

Judy Wojcik, Grady Branch Library, Emory University is the new chair-elect for 1997/98.

Adam Schiff, Principle Cataloger, University of Washington Libraries is the Director elect for 1997/98-1998/99.

The Nominations and Elections Committee wishes to thank Lorri Zipperer, and Liese Tajiri as well as Judy and Adam for agreeing to run for office.

While the bylaws change must be voted on at the Annual business meeting, a ballot went out with the officers' ballot. The results of that "straw ballot" are:

Changes 1-6, 9 and 10:	182
Change 7:	180
Change 8:	174
Changes 11 and 12:	179

Total ballots returned: 182

Comment on change 8: "15 seems like too small a number to begin a new section."

## CALL FOR VOLUNTEERS

Larry Kelland, Chair-Elect

I want to thank all of those who have volunteered to be on our committees for 1997-1998. We still need volunteers for some of the committees. We need people to join the Fund Development Committee, the Publications Committee, and the Student Relations/Career Guidance Committee, in addition to those who have recently come forward. We also need experienced members who have been active in the Division for the Awards Committee. Please let me know if you can serve on these committees.

Larry Kelland  
University of Rhode Island Library  
15 Lippitt Road  
Kingston, RI 02881-0803  
401-874-5067; lkelland@uriacc.uri.edu

## The Emergence of Complexity in Mathematics, Physics, Chemistry, and Biology

Edited by Bernard Pullman

Complexity studies, though still in their infancy, are controversial. By viewing different systems—whether those in biological, physical, or even social sciences—as a series of interacting “agents,” researchers involved in complexity explore a rich and diverse set of phenomena such as self-organization and adaptation. They use these phenomena to model and explain such things as the formation of cities, the behavior of the stock market, and the origin of life.

In this volume, some of the world's leading scientists discuss the role of complexity across all the scientific disciplines.

*Proceedings of the Pontifical Academy of Sciences*  
Paper \$39.50 ISBN 0-691-01238-5

## New in paperback A Natural History of Amphibians

Robert C. Stebbins  
and Nathan W. Cohen

The class *Amphibia* contains more than 4,500 known living species, and new species are being discovered so rapidly that the number may grow to more than 5,000 during our lifetimes. Robert Stebbins and Nathan Cohen focus our attention on the “natural history” of amphibians worldwide and emphasize their interactions with their environments over time: where they live; how they reproduce; how they have been affected by evolutionary processes; what factors will determine their destinies.

“Conveys the authors' enthusiasm for studying the natural history of a fascinating group of animals. The illustrations are superb [and the] line drawings are a delight. . . . A major contribution.”—*The Quarterly Review of Biology*

37 halftones, 52 line illustrations.

Paper \$19.95 ISBN 0-691-10251-1

## Coral Reef Fishes

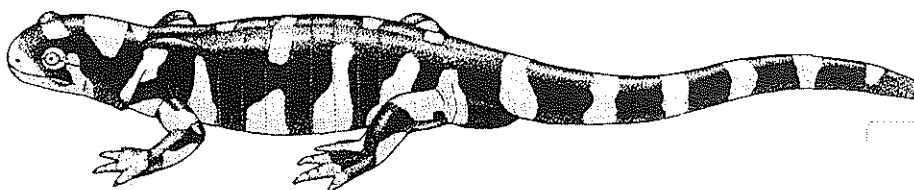

Caribbean, Indian Ocean, and Pacific  
Ocean, Including the Red Sea

Ewald Lieske and Robert Myers

This is a handy guide to all fishes that are likely to be observed on the coral reefs of the Indo-Pacific and the western Atlantic Oceans to a depth of sixty meters. It is the first comprehensive guide of its kind. It enables the reader quickly to identify 2,074 species of fish and includes over 2,500 color illustrations depicting the major forms of each species—male, female, immature, or geographical varieties.

The text begins with a valuable introduction to such topics as the coral reef environment, habitats, ecology, social interactions, conservation, and dangerous marine fishes. Of particular interest is a section offering pointers on identifying fish. The text proceeds according to region, depicting each species and its varieties, and offering information on its geographic range and where on the coral reef itself the fish may be found. Important identification characteristics are highlighted on every color plate.

Cloth \$35.00 ISBN 0-691-02659-9

## SEATTLE CONTRIBUTED PAPERS SESSION

Liese Tajiri  
Chair, Contributed Papers Session, Seattle

Be sure to attend the Biological Sciences Division's Contributed Paper Session in Seattle on Wednesday, June 11, 1997, from 1:00-3:30. This year's theme is: "From Reactive to Proactive: Substantive Approaches to Incorporating the Internet into Biological, Medical and Life Sciences Libraries".

The titles and participants for the program follows:

"GALILEO: Using the WWW to Access Biomedical and Life Sciences Resources A Statewide Initiative" presented by Susan Curtis, Science Library, University of Georgia, Athens, GA

"The Virtual Journal Reading Room" presented by Elizabeth Winiarz, University of Massachusetts, Dartmouth, MA

"INFOMINE: The First Three Years of a Virtual Library for the Biological, Agricultural and Medical Sciences" presented by Steve Mitchell, Bio-Agricultural Library, University of California, Riverside, CA

"The Internet in the Library/Classroom: Genetics at the University of Florida" presented by Michele R. Tennant, Health Science Center Library University of Florida, Gainesville FL

### Information Revolution Pathway to the 21st Century

Don't miss the professional papers from SLA's 87th Annual Conference held in Boston, MA! Gain useful insights from the thoughts, trials, and experiences of 11 information professionals. Paper topics include:

- Disaster planning for special libraries;
- The electronic library;
- Building partnerships;
- International information sharing.

©1996 • ISBN 0-87111-459-3  
\$25/SLA members \$20

For ordering information, call Special Libraries Association at 1-202-234-4700, ext.643. Please add \$4.90 for shipping and handling. For orders outside the U.S., Canada, Mexico, or Central America, add \$14.90

### Position Descriptions in Special Libraries third edition

edited by Del Sweeney with assistance from Karin Zilla

You'll find 87 descriptions for a wide range of positions in the library environment, with a number of new positions devoted to information systems and computer support functions.

Also included  
are two valuable  
essays

#### "Knowledge and Skills for Information Managers"

Reviews the types of technical knowledge and skills needed by librarians and presents some suggestions on how to acquire them.

#### & "Writing Position Descriptions for Fair Compensation"

Gives practical advice on working with the human resource professionals in your organization to obtain the appropriate grading and compensation.

For more information, call 1-202-234-4700, ext.643.

©1996 • ISBN 0-87111-451-8 • \$38.90/\$29.90 SLA members  
(price includes shipping and handling)

## **BYLAWS COMMITTEE UPDATE**

By Lucy M. Rowland, Chair  
Division Past-Chair

Members who attend the Annual Business Meeting in Seattle this June will have an opportunity to participate in an important moment in the Division's 63 year history, so get those #2 pencils sharpened and ready!

Earlier in the spring, a ballot was sent to all Division members delineating changes in the Bylaws that would divide the current Secretary-Treasurer position into two offices, Secretary and Treasurer; make maintenance of the Procedures Manual an explicit duty of the Director; adjust the election schedule; and bring the Division's Bylaws into conformance with SLA Bylaws regarding number of members required to form a Section (15).

Because our Bylaws prescribe that the official vote on amendments must take place at a Division meeting, the written ballot, while valuable, remains a straw poll. Another vote will be taken, along with the vote on the Division name and scope note change published in the Winter issue of Biofeedback, at the annual meeting. There will be time to review the changes and ask for clarifications at that time. Patricia Yocum, Bylaws Chair for 1995-96, and I will lead the discussions.

At this time I would like to thank the 1996-97 Committee for its work and advice this year: David Duggar, Virginia Lingle, Adam Schiff, and Patricia Yocum. I urge all who will be attending SLA's annual meeting in Seattle to come to the annual business meeting breakfast on Tuesday, June 10 at 7:30, and hear about the amendments and vote.

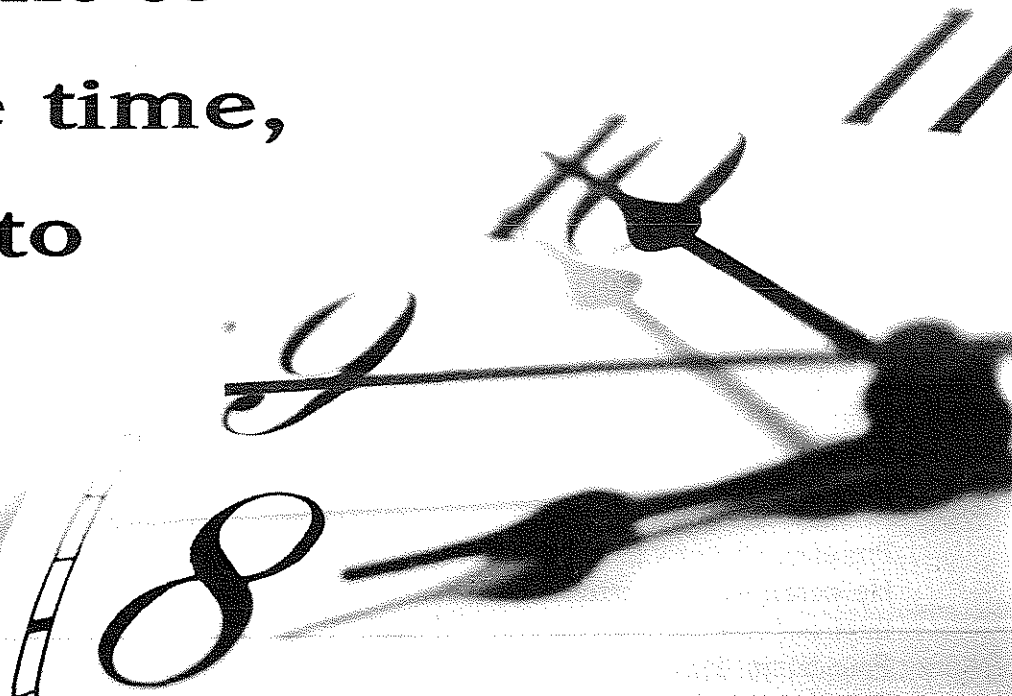

## **Public Relations Committee Request/ Share the Good News**

Janet Weiss  
Chair, Public Relations Committee

Have you had success in marketing your library? Have you promoted your library in a unique way? Has upper management recently realized how important it is to have an in-house information provider? The Public Relations Committee of the Biological Sciences Division is looking for PR news to print in this space and to send in to SLA headquarters. Please send your stories to Elizabeth Lamont. Photos welcomed. Text may be emailed to Elizabeth at [elamont@rvhmed.lan.mcgill.ca](mailto:elamont@rvhmed.lan.mcgill.ca) or faxed to her at 1-514-843-1483 or snail mailed to her at Royal Victoria Hospital, Medical Library, 687 Pine Street, Montreal PQ H3A 1A1 CANADA.

We hope to hear from you soon!

**If you want to  
know the time,  
you turn to  
a clock,  
right?**

## **Turning to Derwent's Biotechnology Abstracts should**

**be your same reaction . . .** when you need specific information within the Biotechnology arena. The reason is quite simple... Biotechnology Abstracts (BA) is a unique database dedicated to worldwide biotechnology information from all areas of the industry. Every abstract, written by biotech experts, focuses specifically on applications and production processes used in the biotech industry. These intellectually enhanced abstracts are extracted from over 1,300 of the world's leading scientific and technical journals, conference reports and proceedings, and patents from over 40 patent-issuing authorities worldwide! In fact, BA is the *only* Biotech database that guarantees an abstract in English for *every*

record. Searching these user-friendly and precise abstracts provide you with quick, effective access to vital

biotech information. So, with the biotech industry spending \$7 to \$10 BILLION on R&D each year, isn't it time you made sure every R&D dollar you spend produces results? Then it's

time you turn to Derwent's Biotechnology Abstracts!

Available online via  
Dialog, DataStar, STN  
and Orbit, on CD-ROM  
(using SilverPlatter software with MS-DOS,  
Windows, and  
Macintosh), or in print.

## **Why turn to Derwent's Biotechnology Abstracts...**

- Save valuable time by searching only biotechnology information
- Access to one of the world's largest sources for global biotech coverage
- Obtain unrivaled information from abstracts written by biotech experts
- BA is the only database to cover all areas of biotechnology including: Pharmaceutical, Environmental, and Industrial

## **Use Derwent's Biotechnology Abstracts to ensure your Biotech research is effective, complete, and on time . . .**

Call Derwent today at 1-800-DERWENT for a FREE copy of our guide *Derwent Biotechnology Abstracts—An Introduction*, or send an E-mail to [info@derwent.com](mailto:info@derwent.com). Find out NOW how Derwent can help you! You can also access our World Wide Web Site at <http://www.derwent.com> for additional product information.

## Government Relations Update

Susan C. Curtis  
Government Relations Liaison

SLA joined four other library organizations to create a working group to draft reform legislation for Title 44, the part of the US Code concerning public printing and government documents. The group seeks to find wording which will be acceptable to the recipients of government information while meeting the needs and concerns of the library community. The working group will focus on identifying standard formats for electronic product distribution and explore options for archiving.

SLA has nominated Margaret A. Garvin to serve on the Depository Library Council to the Public Printer. Peggy is a member of the Congressional Research Service's staff. The Depository Library Council advises the Public Printer on matters relating to the Federal Depository Library Program.

President Clinton's 1998 budget request gave hope to many in the scientific research community. He increased the research and development budget by two per cent overall. He recommended three per cent increases for both the National Institute of Health and the National Science Foundation. Three fourths of NIH's proposed budget would go towards research project grants. Specific areas for support include AIDS research, the biology of brain disorders, microbe sequencing, disease prevention, new therapeutic drug development, genetic medicine, and advanced instrumentation. The National Oceanic and Atmospheric Administration's overall budget lost two per cent in the President's request, but climate and air quality research got an eight per cent increase. EPA's budget request went up over twelve per cent overall, with funding for research up ten per cent. Areas which came in for special attention include ecosystem protection, global change, children's environmental health, and the health effects of particulate matter.

Tom Harkin (D, Iowa), and Arlen Specter (R, Pennsylvania) have reintroduced a bill (S. 441) which would require health insurance companies to pledge one per cent of their annual revenue to a trust fund for the National Institutes of Health. The projected revenue for this National Fund for Health Research would amount to \$6 billion dollars a year. The sponsors hope that the fund would assist with the renovation and repair costs of maintaining research facilities as well as support promising areas of investigation.

Concerns about human cloning prompted two Congressmen to sponsor legislation to ban federal funding for such research. Christopher Bond (R, Missouri) has proclaimed that "There are aspects of human life that should be off limits to science." He introduced S.368 which would prohibit the use of federal funds for human cloning research. His colleague, Vernon Ehlers (R, Michigan) introduced a similar measure in the House of Representatives. Some scientists are urging the Congress to distinguish between cellular level cloning for research purposes and cloning with the intent to create another human being.

Continued on page 9

Continued from page 8

Also of interest is a bill sponsored by Pete Domenici (R, New Mexico). He introduced the Genetic Confidentiality and Nondiscrimination Act of 1997, which seeks to prohibit employers and insurers from discriminating against individuals on the basis of genetic information. It has far reaching implications and covers the collection, storage and analysis of DNA samples, disclosure of genetic information, and research involving genetic analysis.

### APPROVAL VENDOR SURVEY

The UCLA Biomedical Library is in the process of evaluating approval vendors in the Life Sciences. We are conducting analyses of 3 vendors and the titles they can supply in selected life sciences disciplines. In addition to our analyses, we would also like to hear what experiences other life sciences librarians have had with approval vendors.

Would you please take a few minutes to complete the very short questionnaire attached. Your input will help us a great deal. If you are interested, I will be glad to summarize the results and forward them to you.

Thank you in advance for your help.

#### QUESTIONNAIRE:

1. Do you currently use an approval vendor? Yes \_\_\_\_\_ No \_\_\_\_\_

2. If not, why not?

---

---

---

---

3. If yes, which vendor(s) do you use (please list):

- a.
- b.
- c.
- d.

Continued on page 10

Continued from page 9

4. What subject area(s) does your vendor(s) cover for your library (please list):

- a.
- b.
- c.
- d.

5. How successful is your vendor(s) at meeting your expectations?

6. What does your vendor(s) do well?

7. Have you been experiencing problems with your vendor(s)? If so, what problems?

8. What would you change and why?

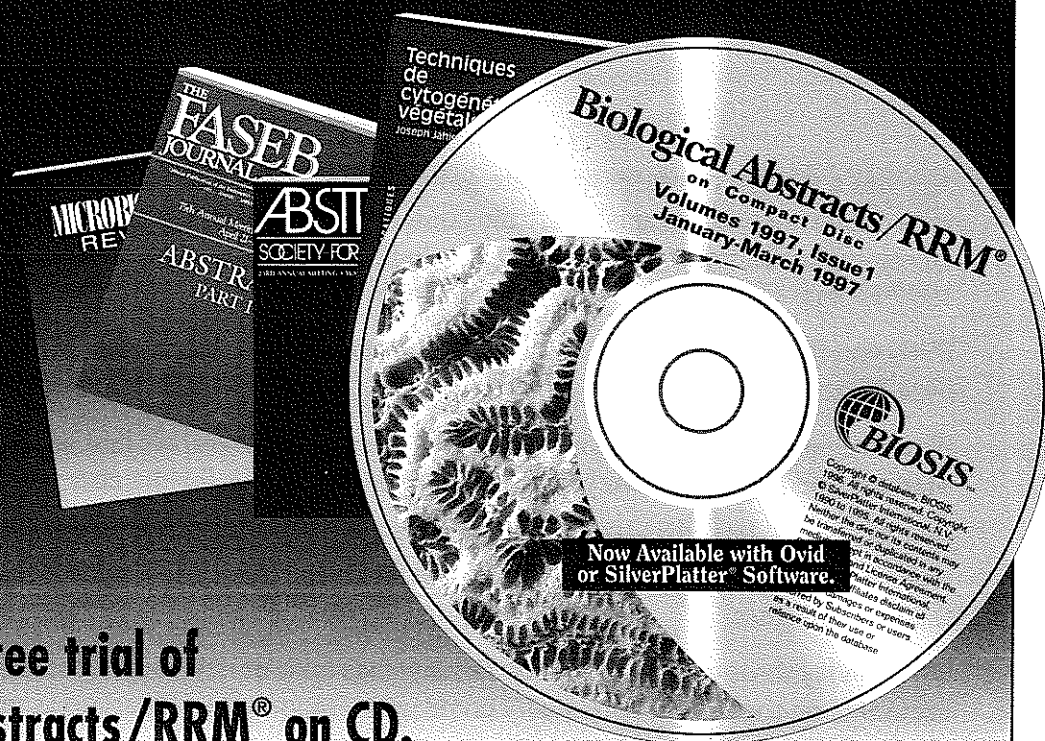

9. Comments?

Thank you for your information. Please email responses to Barbara Schader at [bschader@library.ucla.edu](mailto:bschader@library.ucla.edu) or fax to me at 310-825-0465 or mail to:

- patents
- books

## Apply for a free trial of Biological Abstracts/RRM® on CD.

Help your researchers obtain references to information not covered by other biological and medical databases. Apply for a trial of **Biological Abstracts/RRM (Reports, Reviews, Meetings) on CD** and let your researchers evaluate how complete their search results will be with references to meeting papers, reviews, books, and U.S. patents.

**Biological Abstracts/RRM on CD** provides over 140,000 references to 1,500 meetings, symposia, and workshops annually, including:

- *International Conference on AIDS*
- *Annual Meeting of the Society for Neuroscience*
- *Annual Meeting of the American Association for Cancer Research*
- *Meeting of the American Federation for Clinical Research*

Researchers also can rely on **Biological Abstracts/RRM on CD**'s references to review articles, books and book chapters, and U.S. patents.

Apply for a free trial today so your researchers can evaluate **Biological Abstracts/RRM** using their own areas of research. The trial program includes at least one quarter's worth of data, your choice of Ovid or SilverPlatter search software, quick reference card, database documentation, and complete support from the BIOSIS Help Desk.

## **Student Relations and Career Guidance Committee "Seattle and You"**

David Duggar

Chair, Student Relations/Career Guidance Committee

Are you a student or recent graduate going to the SLA annual conference in Seattle? If so, don't miss out on these programs! Start the conference off with a get together with members of our Division plus Chemistry and ERMD at a Joint Breakfast Sunday morning. Follow that up with the 1997 Ribbon Cutting Ceremony for the Exhibits.

If it's your first time here, see Fred Roper, our Division's Chair at the SLA Fellow's Reception for First-Time Attendees.

If you've been to conference before, then come to our Division's first annual meeting of the Medical Section. We'd love your input on plans and goals for the next year!

End Sunday evening by visiting our Open House sponsored by ACS with the Chemistry Division and ERMD. If you miss this one, we have an Open House each night! Mingle and meet your fellow colleagues!

On Monday through Thursday, our Division has a lot of new and interesting programs, plus programs on topics that continually come up as important to librarians in our field (like the Human Genome Project!).

Remember while hitting the exhibits and programs to stop by the SLA Career Advisory and Employment Clearinghouse. There might be a job with your name on it! You might even be able to interview for it that week!

On Monday morning, come to the Student & Academic Relations Committee's program "What works for students and faculty?" You know better than us what works. We need your input.

Tuesday morning, I hope we'll see you at our Division's breakfast. If you haven't met your fellow members or the Division's officers, now is the time. Who knows? There might even be a Committee opening only you can fill!

On Wednesday afternoon, come to the Contributed Paper Session. You could be at the podium next year!

On Thursday, relax with any of the tours. We are sponsoring a trip to the Bloedel Reserve, and with ERMD and our Natural History Caucus, a trip to the Weyerhaeuser Company Library and Botanical Collections. But if you've got money to spend, see the Wild Orcas!

Don't be put off by the high prices of conference hotels. There are other hotels in just as close that are cheaper. Check them out through the websites and phone numbers offered in the Seattle Conference webpage.

And remember, my committee depends on you. Come see me and tell me what you want from your Division and then volunteer to help!

## MEDICAL SECTION REPORT

Nancy Bryant,  
Medical Section Organizing Chair

The Medical Section, Chaired by Nancy Bryant of Morehouse School of Medicine, will hold its 1996/97 annual meeting on Sunday, June 8 from 1:30 - 3 p.m. in Seattle. This will be our first meeting and it has received generous support from Majors Scientific Books, Inc. David Duggar, Louisiana State University Medical Center Library, has agreed to serve as Chair for the 1997/98 year and looks forward to working with incoming BIO Chair Larry Kelland on Medical Section activities, particularly those associated with the Indianapolis conference. Remember, any member of the Biological Sciences Division can join the Medical Section for no cost by simply contacting SLA Headquarters, indicating a desire to be a section member. See you in Seattle!

  - Video recordings for training courses on many technical subjects

## MEMBER PROFILES

Cami Loucks, former BSD president, has recently become an agent for Fretwell-Downing Informatics (USA) Ltd, in their new USA company headquarters in Overland Park, Kansas. Not surprisingly, considering her recent studies in network administration, this was a major new emphasis in her career as a former director of hospital libraries, part-time library consultant, and adjunct professor of the School of Information Science and Learning Technology at the University of Missouri-Columbia. She will be providing assistance in a number of key areas of the company, which markets the OLIB (formerly known as ORACLE Libraries) automated library systems software. You will be able to visit with Cami at the SLA Annual Meeting in Seattle, in the exhibit hall, at booth #140.

James W. Markham earned his Ph.D. in Marine Botany at the University of British Columbia, and afterwards conducted grant-funded research on seaweeds for years in Nova Scotia, British Columbia, Oregon, and Helgoland, Germany, before earning an M.L.S. at the University of Washington. Since 1986 Jim has been a librarian at the University of California, Santa Barbara. Initially the Science Cataloger and Marine Biology Librarian, he is now the Original Cataloger for Science, German, Scandinavian, and the Atlas Collection, and Subject Specialist/Collection/Reference Librarian for Biology, Aquatic Sciences, German and Scandinavian.

Peggy Jones served as consultant for a new publication by Faulkner & Gray, Inc., entitled Patient Resources on the Internet: 1997 Guide for Health Care Professionals. Peggy provided the content for Chapter 10: Directory of Consumer Health Resources On-line. She is currently the Reference Librarian at the Brennemann Library, Children's Memorial Hospital, Chicago, IL, and is a member of BSD and the Illinois Chapter of SLA.

Tina Kelley has been a reference librarian at Finnegan, Henderson, Farabow, Garrett & Dunner since September, 1991. Tina graduated from the University of Maryland with an MLS in 1987. Her job includes database searching (mostly DIALOG) and obtaining biomedical and other scientific articles and documents. Finnegan Henderson is a 150-plus attorney intellectual property firm in Washington, DC.

Emily R. Shultz is currently in her first year of library science studies at the University of Washington in Seattle. For nine years Emily was busy cloning and sequencing genes (information acquisition) in molecular biology research laboratories. Her goal is to do less messy information acquisition in a library where she can assist with biological reference and bioinformatics resources.

#### **SEATTLE '97 LISTSERV UP!**

Do you have questions about the Seattle area and the Pacific Northwest that you would like to ask before the conference? If so, join the conference listserv! Pacific Northwest Chapter members will do their best to give you answers. To join the listserv, follow these simple steps:

1. Send a message to: [LISTSERV@sla.microsoft.com](mailto:LISTSERV@sla.microsoft.com)
2. Leave the subject line blank
3. Put the following line in the body of the message: **join Seattle97**

You can also join through the web site, <http://sla.microsoft.com>. After joining, you will receive an auto-reply from the listserv detailing how to get general help, leave the list, etc. Please save this message! To use the list, email [Seattle97@sla.microsoft.com](mailto:Seattle97@sla.microsoft.com). If you have problems, please contact Cindy Jones: email: [cindyjo@microsoft.com](mailto:cindyjo@microsoft.com), phone: 206-703-5740.

Introductory  
Offer!**

# The Child Psychology Classic ...now 100% revised

## The Handbook of CHILD PSYCHOLOGY

*Fifth Edition*

William Damon, Editor-in-Chief,  
Brown University

It's been fourteen years since the Fourth Edition of this classic reference reached library shelves. *The Handbook of Child Psychology* has shaped the field of human development. It's been child psychology's definitive sourcebook, encyclopedia, and research review guide.

Now, with the new *The Handbook of Child Psychology*, Fifth Edition, you get the same revolutionary scholarship—focused on a new century of child and adult development concerns. The completely revised Fifth Edition brings together an international field of premier human development authorities for an in-depth exploration of every social, emotional, perceptual, moral, cognitive, linguistic, and applied aspect of child psychology.

This long-awaited new edition is an absolute must-read whether you're a practitioner in human development, psychology, sociology, anthropology, or cognitive science. And it's a must-have reference for educators, policy-makers, and students.

### Volume 1:

Theoretical Models of Human Development  
ISBN 0-471-05527-1 1392 pp \$150.00

### Volume 2:

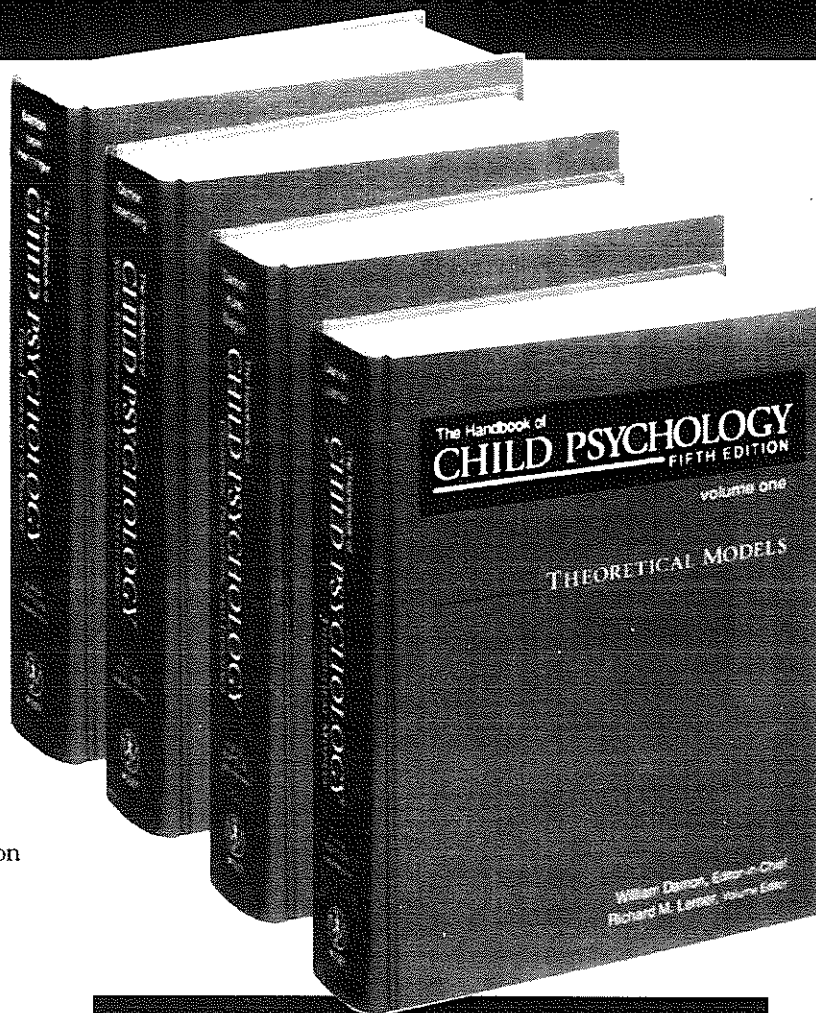

Cognition, Perception, and Language  
ISBN 0-471-05730-4 1120 pp \$150.00

### Volume 3:

Social, Emotional, and Personality Development  
ISBN 0-471-07668-6 1232 pp \$150.00

### Volume 4:

Child Psychology in Practice  
ISBN 0-471-07663-5 1102 pp \$150.00

**Four Volume Set  
Publishing November 1997**

*Contemporary Psychology*  
review of the Fourth Edition

"If one considers the Handbook to represent the field, and the field to represent the developing child, it is quite clear that the child is growing rapidly."

Available Through Your Vendor

**Four-Volume Set ISBN 0-471-17893-4 \$600**  
**SPECIAL INTRODUCTORY OFFER \$500 (Valid through November 1997)**
