

ELECTION RESULTS FOR 2003 - 2004

The Biomedical and Life Sciences Division's Nominations and Elections Committee is pleased to announce the results of the 2003 election. Our new officers are:

Chair-Elect: Peggy Jones
Director: Laurie Scott
Secretary: Anne Turhollow

Peggy, Laurie and Anne will assume their new offices at the Annual Division Business meeting in New York City on Tuesday, June 10, 2003. The members of the Committee would like to thank all of our candidates for their willingness to serve our division. Heroes all!

Nominations and Elections Committee

Tom Turner, chair
Ruth Gustafson
Barry Brown

Message From the Chair: David Duggar

Congratulations to the UCONN Huskies, the ladies basketball team, for winning their championship. I am sure that Jonathan and Carolyn, our editors, are enjoying the celebratory mood at their school. This is the fourth time that the Huskies have won the championship. It is great to hear happy news amidst another troubled year that included the meltdown of a subscription agency (dubbed by some as the ENRON of the library world), Washington sniper, and tensions regarding international relations.

The weather has also been 'off' this year. March brought a massive snowstorm to Colorado closing the airport for days. Even now in mid-April we still have unseasonable lows in the 30s in northern Louisiana. Hopefully the weather will be warmer in New York in June.

This is our pre-conference issue of *Biofeedback* and my last issue to write as your Division's Chair. It is amazing how quickly time passes. I've already received annual reports from three of our committees and the Division's report will be due May 1st. A big thank you goes to all of our members for supporting our Division and the Association through your membership. I thank those who have the time to devote and willingness to give of their experience or to 'learn on the job' by serving on a committee, as a liaison to another library organization, or as an officer. We have had a lot of new faces as well as

several older members returning after devoting their time to other organizations and projects for a few years. Can you imagine knowing someone who worked in your state years ago and after experiencing several diverse library positions showing up as an incoming officer? I was thrilled to see that Christopher Hooper-Lane is back as an active SLA member, agreeing to be the Medical Section's chair-elect-elect, now at the University of Wisconsin Health Sciences Libraries, after working the swamps at LUMCON and mines in Golden, Colorado. There are so many to name, but like the Oscars, time is short. So most especially I thank Bruce Smith for 'learning on the job' as the one-person Student Relations Committee, Howard Fuller for coming up with two amazing programs the Medical Section will be hosting in New York, Claudia Lascar for getting us Dr. Lindberg as a speaker, Renee Bush and Michelle Tenant for their ability to continuously encourage sponsorship out of vendors, Peggy Jones for agreeing to be the insane

one this year (Secretary, Program Planner, candidate for chair-elect office), Nancy Curtis and Lorri Zipperer for keeping me on track, and Nancy Stimson for asking questions and not fleeing to the Mir Space Station after hearing the answers.

Just like last year the New York conference is packed with programs of interest sponsored by our Division and others. We are hosting two CE courses, 11½ programs, 4 meetings (one which includes the ½ program), 1 tour, and 1 reception. Plus ACS/CAS will hold its traditional reception, entitled “A Night in Venice” for the CHM, BIO, ERM, FAN, Sci-Tech, and PHT Division members on Sunday 8:00 – 10:00 p.m. at the Remi Restaurant, Outdoor Garden Atrium, 145 West 53rd Street. When looking at your conference program books, please note that we have had some changes. The Hudson River Tour has been canceled and the Reuters Reception changed to a Medical Section Reception in one of the conference hotels.

The exhibits area will be open Monday morning and close at 1:00 Wednesday. Tuesday will be the ‘late’ hours for the exhibits, opening at 11:00 and closing at 6:30 that evening, with a reception in the exhibits starting at 5:00. Please take the time to visit the exhibits and thank those companies who have donated money to help with the costs of the programs we are holding. Please try to attend the SLA Business Meeting Wednesday morning. See the articles on the branding topic in the April issue of *Information Outlook* as well as the information on the SLA web site. Student members, please contact Bruce Smith if you would like one of the limited numbers of free tickets to our two breakfast functions, Academic Roundtable and Division Business Meeting, Sunday and Tuesday. And everyone come to celebrate as we recognize one of our own with the Division’s Distinguished Service Award.

Nancy Stimson already has a Nashville Program Committee of eager “Lady Vols”, but she is looking for volunteers to serve on committees, like Student Relations! You will find a volunteer sign up form below – please help out, if you can.

See you all in New York!

ehp

Journal of the National Institute of Environmental Health Sciences

The Definitive Journal on Environmental Health

Environmental Health Perspectives (EHP) is must reading for health, research, and medical library patrons around the world. For over 30 years, this peer-reviewed journal published by the National Institute of Environmental Health Sciences has delivered the most current, credible research and news on environmental effects on human health. With an impact factor of 3.137, *EHP* ranks among the top four most-cited journals in environmental sciences.

Subscribe today to receive 17 issues annually (12 monthly issues, 4 toxicogenomics issues, and an annual review issue), as well as full access to ehponline.org including *EHP* and its archives, National Toxicology Program reports, and daily updated content.

2003 SLA ANNUAL CONFERENCE BIO DIVISION EVENTS

Saturday, June 7

CE: Information Hubs for Molecular Biology Databases and Software **1:30PM – 5:30PM**
 Instructor: Dr. Michele Tennant, University of Florida
 Ticket #185 \$199.00 Members / \$249.00 Nonmembers
 Sponsor: Swets-Blackwell

DBIO 2002-2003 Board Meeting **6:00PM – 9:00PM**
 Moderator: David Duggar, Louisiana State University
 Sponsor: Adis International

Sunday, June 8

Academic Roundtable Breakfast **7:30AM – 9:00AM**
 Co-sponsored by DBIO, DCHE and DST.
 Moderator: Kathleen Kehoe, Biological Sciences Library, Columbia University
 Ticket #200 \$5.00
 Sponsor: BMJ Publishing Group

Vendor Roundtable **9:30AM – 11:00AM**
 Co-sponsored by DBIO and DPHT
 Moderator(s): Susan Kendall, Michigan State University
 John Tebo, University of Cincinnati
 Speaker(s): Jim Quigley, OVID
 Myra Shields, BIOSIS
 Natasha Robshaw, BioMedCentral
 Thomas B. Lanigan; Christopher Zelaya, Humana Press
 Sponsor(s): OVID, BIOSIS, BioMedCentral, Humana Press

This year the roundtable will include a free continental breakfast, courtesy of our speaker/sponsors. Our diverse group of vendors promises something of interest to everyone. BioMed Central will speak about their alternatives to traditional scholarly publishing in the areas of biology and medicine. Ovid will present Ovid@Hand, one of the top PDA products of interest to medical librarians. Humana Press plans to demonstrate their very new online versions of the popular Methods in Molecular Biology series. Finally, BIOSIS will present data comparing the coverage of their databases with other popular biomedical databases such as Medline.

CE: Biology Librarianship for the Non-Biologist **1:00PM – 5:00PM**
 Instructor(s): Kathleen A. Clark, Biotechnology Librarian, University of Illinois
 Diane Schmidt, Biology Librarian, University of Illinois
 Ticket #185 \$199.00 Members / \$249.00 Nonmembers
 Sponsor: Lippincott Williams & Wilkins

Medical Section Annual Business Meeting**1:30PM – 3:00PM**

Moderator: Howard Fuller, Stanford Hospital & Clinics

Speakers: Susan O'Neil, National Library of Medicine
Patricia Mae Stachiw, Columbia University

Sponsor: BMJ Publishing Group

Besides discussing the business of the section, we will feature a presentation on librarian's use of clinical trials by Susan O'Neill Johnson, formerly of the National Library of Medicine, and Patricia Mae Stachiw, Collection Development Librarian at Columbia University.

ACS/CAS Reception**8:00PM – 10:00PM**

Co-sponsored by DCHE, DBIO, DERM and DPHT

Sponsor(s): American Chemical Society, Chemical Abstracts Service

Monday, June 9**DBIO Past Chairs Luncheon****11:30AM – 1:00PM**

Moderator: David Duggar, Louisiana State University

Sponsor: John Wiley & Sons

Getting Published**11:30AM – 1:00PM**

Moderator: Jennifer Amador, Biomedical Librarian, Philip Morris USA

Speaker(s): Martin Kesselman, Information Services Librarian, Rutgers University Libraries

Dr. Patricia Libutti, Social Sciences/Education Librarian, Rutgers University Libraries

Sponsor: ISI/ Thomson Scientific

Health Effects of Air Quality Post 9/11**1:30PM – 3:00PM**

Co-sponsored by DBIO and DERM

Moderator: Davenport (Dav) Robertson, Library Director, National Institute of Environmental Health Sciences

Speaker: Bruce Lippy, National Clearinghouse Director, National Institute of Environmental Health Sciences

Sponsor: Elsevier Science

Knowledge Technologies: Broadening the Opportunities of Librarians**3:30PM – 5:00PM**

Co-sponsored by DBIO and DCHE

Moderator: Howard Fuller, Stanford Hospital & Clinics

Speaker: Dr. Yves A. Lussier, Columbia University

Sponsor: IBM Life Sciences

Scientific information is subject to significant changes. Besides scientific research itself, technology is changing the very nature of publishing that challenges the role of librarians. The objective of this presentation is to provide examples of current cutting-edge technologies that take advantage of new forms of computable knowledge to increase the value of scientific narratives for librarians and scientists. Concluding remarks on the new skill sets required from librarians to evaluate, deploy and maximize the value of these systems will also be addressed.

DBIO Medical Section Reception**CANCELLED!**

AWARDS COMMITTEE UPDATE

Division Members Honored

Later this year, three members of the Biomedical and Life Sciences Division will be honored for their accomplishments:

Lorri A. Zipperer (Cybrarian, Zipperer Project Management, Evanston, Illinois) will be presented with the 2003 SLA H.W. Wilson Company Award at the SLA Annual Conference. This award is given for the best article published during the previous calendar year in *Information Outlook*. Lorri (who also won the award in 1994) will receive it for "Communicating Competencies and Collaboration" [*Information Outlook* 6(9): 28-34], which she co-authored with fellow SLA member Sara R. Tompson.

Naomi C. Broering (Director, W. C. Herrick Community Health Care Library, La Mesa, California) will be presented with the Marcia C. Noyes Award at MLA '03, the 2003 annual meeting of the Medical Library Association (MLA). The Noyes Award is the highest professional distinction awarded by MLA, recognizing a career that has resulted in lasting, outstanding contributions to health sciences librarianship. Naomi served as President of MLA, Editor of the *Journal of the Medical Library Association* (formerly the *Bulletin of the Medical Library Association*), and Chairman of the MLA Legislation Committee. She also served on the MLA Board of Directors. She is a Distinguished member of the Academy of Health Information Professionals and a Fellow of the American Medical Informatics Association. She has served as the Executive Director of the Houston Academy of Medicine-Texas Medical Center Library, as Director of the National Network of Libraries of Medicine, South Central Region, and as Director of the Georgetown University Medical Center Library. Naomi received the SLA Professional Award in 1987 for her expertise in library automation and her contributions to special librarianship. She is the first recipient of the Division's Winifred Sewell Prize, awarded in 1999 for her leadership in developing, applying, and promoting new technologies in libraries. Currently, she edits the electronic newsletters of the Friends of the National Library of Medicine and the Friends of the National Institute of Dental and Craniofacial Research.

J. Michael Homan (Director of Libraries, Mayo Clinic and Mayo Foundation, Rochester, Minnesota) will be designated as an MLA Fellow at MLA '03. This honor is conferred in recognition of his outstanding and sustained contributions to the advancement of the purposes of MLA. Michael has served as President of MLA, on its Board of Directors, and chaired numerous committees, topical sections, and task forces within the organization. He also served as editor of the *Bulletin of the Medical Library Association*, and as MLA's first managing editor of books.

Congratulations to you all!

Web Site Updates

Let us know of professional awards or honors that you or your Division colleagues receive. We would like to hear about past recognition as well. We are extremely grateful to Jo Anne Boorkman, who combed the MLA Web site to identify Division members who have received awards and honors from that organization. Look for those updates, and more, on the DBIO Awards Web pages (<http://www.sla.org/division/dbio/Awards/AwardsHome.html>).

Fund Development Committee News

New York City Conference Sponsorships

The Fund Development Committee has done a terrific job of lining up support for BIO Division programs for the New York City annual conference. I would like to thank committee members Renee Bush, Eleanor Maclean, Heather Munger, Michele Tennant, Susan Kendall (Vendor Relations Liaison), and Howard Fuller (Medical Section Liaison) for all their hard work.

The committee has raised \$14,800 so far for the New York City conference. Twenty companies contributed to support 22 programs. Three new companies, Adis International, BMJ Publishing and IBM Life Sciences were brought on board this year. Smithsonian Institution Press is also donating some books. Please be sure to thank these sponsors when you see them in New York City and as you do business with them. See the program descriptions above for complete information on our sponsors.

Nancy Stimson
Chair-Elect and
Fund Development Committee Chair

Volunteers Needed

Volunteering allows you to meet new colleagues, share and expand your knowledge and experience, and participate in shaping the future of the Division and librarianship. It's fun, too! Many committees within the Biomedical and Life Sciences Division will soon have openings as some committee members end their terms of service in June 2003. Committee appointments are usually two years in length and may be renewed for another two years. There are also some appointed positions that will have vacancies within the near future.

The Division's Procedure Manual (<http://www.sla.org/division/dbio/procedur/index.html>) describes all the committees and positions. Contact any of the committee chairs or members listed at the end of this newsletter to find out what a committee's workload is like. Then fill out the Volunteer Form below and mail it, fax it, or e-mail it to the Division Chair-Elect. Volunteer now and you will avoid arm-twisting in June in New York City!

Nashville Program Planning Begins

The Nashville Program Committee is gearing up for the 2004 SLA Annual Conference to be held in Nashville on June 5-10, 2004. Janet Weiss has agreed to chair the committee and the members include Marjorie Gross, Jennifer Lyon, Bonnie Stephenson (Medical Section Liaison), Steven Johnson (Natural History Caucus Liaison), Catherine L. Hanson-Tracy (Contributed Papers Liaison), Barbara Hedges (Professional Development Liaison), Susan Kendall (Vendor Relations Liaison) and Peggy Jones (Fund Development Liaison). Additional committee members are also welcome. The committee already has some ideas but needs input from the Division about programs that would have broad appeal and be applicable to as many people as possible. If you would like to join the committee or have program ideas to share, please contact **Janet Weiss** at weissj2@wyeth.com or (732) 274-4268.

Book Review Section

David V. Alford

A Color Atlas of Pests of Ornamental Trees, Shrubs and Flowers

448 pages, \$59.95 (cloth)

Portland, Oregon: Timber Press, 2003.

ISBN 0-88192-561-6

Reviewed by **Roger Beckman**

This is an identification book and the focus is on “recognizing the various pests associated with ornamental plants in the British Isles and much of continental Europe from the Alps northwards. Biological details, and information on the importance of such pests and how to control them, are also given. Many of the pests included here also occur in other parts of the world, including North America, Japan and Australasia.” Identification is an essential starting point in controlling pests.

The majority of the book is devoted to insects and mites. An example would be the vine weevil, *Otiorhynchus sulcatus*. There is a color photograph of the adult on a rose blossom along with photographs of the eggs, larva and pupa. The text covers the plants affected, description of the pest, life history, damage and control. Often a photograph shows the effect of the insect on a leaf or plant, e.g., a wilted *Fraxinus* shoot, web nests in cherry trees, galls on various plants, or the mine of an elm leaf-mining weevil. Miscellaneous pests are broadly covered in 11 pages.

I asked a botanist and the head of our university’s greenhouse to look at this book and both thought it was a very useful book for the identification of the pest. The photographs are high quality. The control part is rather general in terms of specific insecticides but non-chemical methods are covered and the author states “are often preferable and frequently just as effective.” There is a selected bibliography, an index of host plants, and a general index. In conclusion, I would highly recommend this book for academic and public libraries. It should be useful to the professional and the layperson who need to control pests on plants in greenhouses and outdoors.
