SLA Biomedical & Life Sciences Division

## DBIO Celebrates Its 80th Anniversary!

**Date & Time:** Sunday, June 14, 2015

5:30-7:00 p.m.

**Location:** Webster Room, Westin Hotel, Boston

2015 marks the 80th Anniversary of the Biomedical & Life Sciences Division. You turn 80 only once, so join your fellow members to celebrate our history and our achievements, all while enjoying hors d'oeuvres and drinks (one complimentary beverage ticket provided). We invite all **DBIO** members to an elegant evening of fun, food, laughter, and plenty of time to reminisce ...

**RSVP by Monday, June 1, 2015 to [Peggy Murphy](mailto:PeggyMurphy@luriechildrens.org)** ([pemurphy@luriechildrens.org](mailto:pemurphy@luriechildrens.org))

# Message from the Chair

Nalini Mahajan

The 2015 SLA Annual Meeting is fast approaching, and I hope to see many of you in Boston. If you've not yet registered, there is still time. To do so, just visit the SLA Conference Registration page. Your program committee has spent endless hours in planning to make the Boston meeting a success. I urge you to participate in as many events as possible and encourage your friends and colleagues to become involved.

Past Annual Meeting surveys results have consistently shown that attendees want more time together. Therefore, we are going to give you plenty of networking opportunities which will allow you to share your personal experiences and also learn from other information professionals. "How to Network Like You Actually Know What You're Doing", (<http://www.fastcompany.com/3042904/how-to-network-like-you-actually-know-what-youre-doing>) an article written by Laura Schwartz, the former White House director of Events on networking may come in handy while attending these events.

This year marks the 80th Anniversary of the Biomedical & Life Sciences Division (DBIO). In addition to the usual Annual Conference activities and receptions, we will be celebrating our 80th anniversary. After a full day of conference sessions, we will have an opportunity to gather to reminisce at a reception in the Webster Room at the Westin Hotel on Sunday, June 14 from 5:30-7:00 PM. Come and enjoy free drinks, hors d'oeuvres, and a very special cake.

I promise that it will be worth your while to join your DBIO colleagues to celebrate our history and our achievements all while enjoying a sumptuous breakfast during the Business Meeting on Monday, June 15 from 8:00-9:30am (location TBD). We will feature a movie with highlights from past chairs and photos from past conferences, as well some trivia.

As 2015 DBIO Chair, I hope to continue the tradition of excellence exemplified by my predecessors, without whom the many accomplishments of the division would simply not be possible. As successful as the division has been, we can maintain this tradition only with your active participation and with the support of our sponsors. Make every effort to let the vendors know how much you value their support of the division. Please don't hesitate to reach out to me or any member of our Executive Board or Committee Chairs with suggestions and concerns. There is no doubt in my mind that our Chapter will continue to grow for years to come, and hopefully we'll see many of you in 2035 when we celebrate our 100th anniversary!

I look forward to seeing you in the historical city of Boston.

# INTRODUCING LIFE SCIENCE COMPLIANCE UPDATE

**A new monthly publication that delivers concise analysis of today's most pressing regulatory issues.**

## What is Life Science Compliance Update?

- In today's highly regulated healthcare environment, commercial compliance has become among the most pressing topics on the minds of pharmaceutical and medical device executives.

To address this growing concern, the publishers of the highly respected website Policy & Medicine, a "Top 30 Healthcare Blog," have launched Life Science Compliance Update, a monthly subscription publication that seeks to demystify commercial compliance and bring important new understanding to healthcare organizations.

Life Science Compliance Update is the only monthly publication dedicated exclusively to commercial compliance that goes beyond news to offer practicable analysis of current happenings.

## Who will read Life Science Compliance Update?

- The following functional areas will benefit from this publication: Executive Leadership, Compliance, Legal and Regulatory, Medical Affairs, Marketing, and Sales.

## Life Science Compliance Update offers practical insight into:

- False Claims Act and Qui Tam Developments
- Health Care Fraud Alerts and Enforcement Trends
- Corporate Integrity Agreements
- Physician Payments Sunshine Act
- FDA Guidance and Warning Letters
- International Regulations and Enforcement
- Best Practices for Compliance

# 2015 Conference Program Preview

## Nalini Mahajan, 2015 Conference Program Committee Chair

### DBIO Programs

#### Saturday, June 13

##### **Biomedical and Life Sciences Division Board of Directors Meeting/Dinner**

**Date and Time:** Saturday, June 13, 2015 • 6:00-9:00 p.m.

**Location:** TBD

##### **Session Description:**

The DBIO board and committee members will meet to review 2014 activities and projects undertaken by the division and discuss the plans for the 2016 conference. Suggestions for next year's convention programs are taken from the floor. Annual awards are presented. Calls for candidates for next year's officers and committee members are issued.

**Moderator:** Nalini Mahajan, Medical Library Director and Web Master, Marianjoy Rehabilitation Hospital

**Presented by:** Biomedical and Life Sciences Division

#### Sunday, June 14

##### **Biomedical and Life Sciences Division Vendor Relations Networking Lunch**

**Date & Time:** Sunday, June 14, 2015 11:45 a.m.-1 p.m.

**Location:** TBD

##### **Session Description:**

Learn about the latest products and developments of leading information industry vendors selected for their forward thinking in the area of biomedical, life, and natural sciences. Four leading vendors will provide 15-minute presentations with brief question-and-answer followup, while our members enjoy a complimentary box luncheon.

**Moderator:** Donna Gibson, Director of Library Services, Memorial Sloan Kettering Cancer Center

##### **Sponsors/Presenters:**

- Digital Science

Presenter: Meg Baker

- Faculty of 1000

Presenter: Kinga K. Hosszu, Ph.D.

- Scencescape

Presenter: Rabia T. Khan, MBA, Ph.D.

- Wolters Kluwer Health Medical Research

Presenter: Brian McCarthy

**Presented by:** Biomedical and Life Sciences Division

## **Genetic Mutations: How Do They Arise and What Do They Do? Interdisciplinary Perspectives**

**Date and Time:** Sunday, June 14, 2015 • 3:30-5:00 p.m.

**Location:** TBD

### **Session Description:**

This panel discussion will feature scientists from different disciplines presenting the subject of genetic mutations from the viewpoint of their work. First an evolutionary biologist will introduce the topic and discuss generally how natural selection works and the time scales involved. Next a scientist working on genetic changes in organisms will discuss how these changes take place and how they are regulated. Finally a representative from the medical community will address specifically how diseases evolve and change, and what the implications are for human health in particular.

**Moderator:** Dorothy Barr, Research Librarian, Harvard University Libraries

### **Speakers:**

• James Mallet, Evolutionary Biologist  
University College London; now at Harvard University  
<http://www.oeb.harvard.edu/faculty/mallet/index.html>

• Hopi Hoekstra  
Currently Alexander Agassiz Professor of Zoology in the Department of Organismic & Evolutionary Biology and the Department of Molecular & Cellular Biology at Harvard as well as the Curator of Mammals at the Museum of Comparative Zoology.  
<http://www.oeb.harvard.edu/faculty/hoekstra/>

**Presented by:** Biomedical and Life Sciences Division, Biomedical and Life Sciences Division-Medical Section, Natural History Caucus

## **DBIO Celebrates its 80th Anniversary!!!**

**Date and Time:** Sunday, June 14, 2015 • 5:30-7:00 p.m.

**Location:** Webster Room, Westin Hotel

### **Session Description:**

This year (2015) marks the 80th Anniversary of Biomedical and Life Sciences Division. You turn 80 only once, so join your fellow members to celebrate our history and our achievements, all while enjoying hors d'oeuvres and drinks (one complimentary beverage ticket provided). We invite all DBIO members to an elegant evening of fun, food, laughter, and plenty of time to reminisce.

**Moderator:** Nalini Mahajan, Medical Library, Marianjoy Rehabilitation Hospital  
Dorothy Barr, Harvard University Libraries  
Peggy Murphy, Pritzker Research Library, Stanley Manne Children's Research Institute  
Christopher Hooper-Lane, Ebling Library, University of Wisconsin

**Presented by:** Biomedical and Life Sciences Division

## Monday, June 15

### **Biomedical and Life Science Division Annual Breakfast and Business Meeting**

**Date and Time:** Monday, June 15, 2015 • 8:00-9:30 a.m. (Breakfast)

**Location:** TBD

#### **Session Description:**

Join your DBIO colleagues to review the accomplishments of the past year, learn about the plans for the future, and celebrate our award winners. Suggestions for next year's convention programs will be taken from the floor. Calls for candidates for next year's officers are issued.

**Moderator:** Nalini Mahajan, Medical Library Director & Web Master, Marianjoy Rehabilitation Hospital

**Ticketed event:** \$25.00 per person

**Presented by:** Biomedical & Life Sciences Division

### **Learning and Libations: The Annual DBIO Medical Section Reception and Business Meeting**

**Date and Time:** Monday, June 15, 2015 • 4:00-5:00 p.m.

**Location:** TBD

#### **Session Description:**

The Medical Section will host DBIO members and guests at their annual business meeting and reception. Join us for a lively and informal conversation during UNCONFERENCE, a participant-driven conference where the attendees drive the agenda and freely form new discussions and sub-groups as ideas emerge on topics of interest to medical librarians. This will provide a great opportunity to network with your colleagues, foster relationships, meet members, and gain new knowledge while enjoying hors d'oeuvres and refreshments (one complimentary beverage ticket provided). All are invited for drinks and conversation.

**Moderator:** Elaine Dean, Clinical Librarian, Cincinnati Children's Hospital, Edward L. Pratt Research Library

**Presented by:** DBIO Medical Section, Biomedical & Life Sciences Division, Natural History Caucus

### **All Sciences Poster Session**

**Date and Time:** Monday, June 15, 2015 • 5:30-7:00 p.m.

**Location:** TBD

#### **Session Description:**

Join your colleagues in the sciences for an entertaining evening of viewing the latest in science librarianship research while munching on great tasting goodies. Renew acquaintances, meet new friends, chat with others interested in the same research area, and see what is new and hot in science librarianship.

**Moderator:** Beth Thomsett-Scott

**Presented by:** Agriculture and Nutrition Division, Biomedical and Life Sciences Division, Chemistry Division, Engineering Division, Food Agriculture and Nutrition Division, Pharmaceutical and Health Technology Division, Physics-Astronomy-Mathematics Division, Science-Technology Division.

**Tuesday, June 16**

**Revolutionize Library Management: Best Practices in Libraries**

**Date and Time:** Tuesday, June 16, 2015 • 7:30-9:30 a.m.

**Location:** TBD

The most vital requirement for special librarians is to support their organizations overall mission and goals. Speaking from their own personal experiences, these information professionals will cover best practices for measuring and documenting the tangible value of the information services they provide for their respective corporate, medical, scientific and/or technical institutions. This panel discussion will include the following subjects: best practices in libraries; ISO Standard for assessing the impact of libraries; research data analysis; outsourcing; field testing; systems thinking; information technology; partnerships and teaming. Audience participation is welcomed and encouraged.

**Moderator:** Sheila Rosenthal

**Presenters:** Betty Edwards, Joyce Fedeczko, Susan Henczel, Nalini Mahajan, Valerie Ryder, Deborah Schwarz, Sara Tompson, and Vicki Valleroy

**Lead Division:** Science and Technology Division

**Presented by:** Biomedical and Life Sciences Division, Petroleum and Energy Resources Division,

**Demystifying the Information Audit: From Knowledge Management (KM) to Enterprise Information Management (EIM) (Master's Class)**

**Date and Time:** Tuesday, June 16, 2015 • 9:45-10:45 a.m.

**Location:** TBD

**Session Description:**

From knowledge management (KM) to enterprise information management (EIM), the information audit is a tool to be used to address operational and strategic challenges regarding information and knowledge within an organization. This session will include a description of the information process and its relationship to the knowledge audit and to enterprise information management. It will include discussion of requisite skills, potential outcomes and a variety of case studies.

**Speakers:** Sue Henczel, Graham Robertson

**Lead Division:** Science and Technology Division

**Presented By:** Biomedical and Life Sciences Division, Petroleum and Energy Resources Division, Science-Technology Division

**Science of 3D Printing (Master Class session)**

**Date & Time:** Tuesday, June 16, 2015 • 2:00-3:30 p.m.

**Location:** TBD

**Session Description:**

The advances in materials, which can be used for 3D printing, have enabled many new possibilities in 3D modeling, prototyping, and even manufacturing for engineering, biomedical, and pharmaceutical areas. The low cost of open source 3D printing also opens up explorations in printing customized products for consuming in daily life. This session will introduce principles of 3D printing, advance in materials for 3D printing, and its applications in research of the above areas. We will also explore the library and librarians' role in supporting 3D printing in our organizations.

**Moderator:** Kevin Messner

**Lead Division:** Chemistry Division

**Presented By:** Biomedical & Life Sciences Division, Chemistry Division - Material Research & Manufacturing Section, Engineering Division, Food Agriculture & Nutrition Division, Information Technology Division, Pharmaceutical & Health Technology Division, Science-Technology Division

## **Transforming International Science and Technology Librarianship**

**Date and Time:** Tuesday, June 16, 2015 • 2:00-3:30 p.m.

**Location:** TBD

### **Session Description:**

A variety of speakers from academic, corporate, and government libraries will highlight ways their libraries have transformed to meet the needs of their patrons and network with librarians across the world. Topics range across Digitization, 3D Printers, social media, open access, user surveys, programs for librarians and information managers, enterprise tools, web and video conferencing, and information audits.

**Moderator:** Nalini Mahajan, Medical Library Director and Web Master, Marianjoy Rehabilitation Hospital

**Panelists:** Gimena Campos Cervera, Susmita Chakraborty, Andrew Clark, Susan Henczel, P.K. Jain, Geeta Paliwal, Rindra M. Ramli, and Graham Robertson.

**Lead Division:** Science-Technology Division

**Presented by:** Asia Chapter, Biomedical & Life Sciences Division, KIIE

### **Networking Events**

2015 Program Planning Committee is in the process of finalizing the following networking events in Boston. These events will provide new and current members of DBIO to network with their colleagues, share experiences and expertise, and develop valuable contacts. Stay tuned for more information

# Message from the Medical Section Chair

Elaine Dean

I would like to invite all DBIO members, and especially Medical Section members, to get involved in our 2015 conversation! [Learning and Libations: The Annual DBIO Medical Section Reception and Business Meeting](#) at the 2015 annual conference in Boston will be Monday, June 15, 2015, 4:00-5:00 p.m.

This year we are trying something a little different by facilitating attendee-led discussions on topics of interest to medical librarians and the future of the Medical Section. This is a great opportunity to network with your colleagues, foster relationships, meet members, and gain new knowledge while enjoying hors d'oeuvres and refreshments. We are borrowing loosely from the unconference/round table formats and would like to invite all of you to submit your conversation topics. All are invited to join us for drinks and conversation, but we are especially hoping that you will come and share the topics you are most interested in learning about and projects you are working on.

Here are a few suggested topics, but there is plenty of time for you to submit yours and the final topics of discussion will be chosen by the group when we gather in Boston.

- What project or topic is on your mind the most right now?
- What is the biggest challenge you are facing in your current job?
- What do you wish you could do more often? What barriers are making this a challenge?
- What is the best session you've attended so far this conference? What was the best session you've ever attended at SLA and why?
- What are you hoping to gain from your Medical Section membership? What types of activities and events would you like to participate in in the future?
- Do you use social media? Does your library use social media? What other types of marketing do you use to promote your services? What has been most successful?

Please email your topics suggestions to Elaine Dean, Medical Section Chair at [elaine.dean@cchmc.org](mailto:elaine.dean@cchmc.org).

Even if you won't make it to Boston we want to hear from you! Share your ideas for our conversations, and let me know if you are interested in continuing these discussions online throughout the rest of the year. What would you like to see from the Medical Section? Would you participate in a chat on Twitter or Google Hangouts? Is there another format you would like us to explore? Please pass on this invitation to your colleagues and I hope to see many of you at our meeting in Boston and online in the future!

What sessions are you looking forward to this year? You can read about all of the programs DBIO is sponsoring in other parts of this newsletter, but in addition to Learning and Libations there are a couple of sessions from other divisions that might interest Medical Section members. In addition to the sessions below, I always recommend the poster sessions. I like the opportunity to see a lot of interesting projects in a small amount of time and to informally engage with the authors. This year the All Sciences Poster session is immediately following Learning and Libations and I welcome you to join me there!

## [Clinical Evaluation Reports in Medical Device and the Critical Role of the Information Professional](#)

Sunday, June 14 • 1:30-3:00 p.m.

The Medical devices market was revolutionized by the European Union's new rules for submissions in 2010. The Clinical Evaluation Plan/Reports have been a challenge for companies to get a handle on for submissions. This is a great opportunity for information professionals to be a part of the process to make the submission successful. In this presentation, an overview of the regulations and approaches to compliance from literature searching to document review and reporting will be discussed in a panel that will include experts from two different organizations.

## QUICK TAKE: Navigating the Waters of Federal Public Access Policies: The Library's Role in Keeping Funding Afloat

Sunday, June 14 • 1:00-1:15 p.m.

Presented by Food Ag & Nutrition Division

The NIH Public Access policy requires researchers to deposit publications resulting from NIH funding to PubMed Central within 12 months of publication. Failure to comply with this policy results in delays in funding or grant proposal processing. Libraries are taking the lead in providing guidance to both researchers and grant administrators in public access compliance, and as more public access policies roll out from federal funding agencies in response to last year's mandate from the Office of Science and Technology Policy, we expect an increase in demand for such support. This Quick Take session will briefly describe the NIH policy, common pitfalls in compliance and one university library's response to researcher needs for support.

## MASTER CLASS: Revolutions in Grant Writing: Finding Funding for Collections in the 21st Century

Monday, June 15 • 10:00-11:30 a.m.

Finding grant opportunities for collections can be challenging, especially in smaller, specialized collecting institutions with limited staff and funding. This Master Class geared towards managers and administrators will illuminate the process of successful grant writing from pre-writing self-assessment to application to reporting and beyond.

## Scientists' Data & Information Practices: Critical Roles for Information Professionals to Promote Data Management & Open Sharing •

Monday, June 15 • 12:00-1:30 p.m.

Two of the foremost data management experts will discuss current data management trends that focus upon open data, data sharing, data policies and associated issues of importance to scientists as well as information professionals. This session also showcases reputable, easy-to-adopt, free/low-cost tools and services that support data management and are available to anyone around the world.

## MASTER CLASS: The Power of Framing: Creating the Language of Leadership

Tuesday, June 16 • 8:00-9:30 a.m.

One of the most common communication errors made in today's workplace is confusing talking with real communication. One way to avoid this is to better understand the skill of framing through which we define the meaning of "the situation here and now." Are we in a "crisis"? Is this situation merely "a cause for concern" or should we be on "red-alert"? Am I appreciating all the stakeholders impacted? When we connect with others through our framing, we shape reality and if we "manage meaning" when others can't, we emerge as leaders. Presented by Gail Fairhurst, a professor at the University of Cincinnati who has conducted research, written books and consulted with many organizations and Fortune 500 companies on this topic. Attendees will leave this session with guidelines they can act on to assess their communications style and communicate more credibly in today's business environment. #leadlanguage

# Member News and Publications

## Lori Bronars

Once again DBIO members have shown great variety in their professional activities and accomplishments over these past few months. Congratulations to all!

Darra Ballance, MLIS, AHIP, Assistant Professor at the Robert B. Greenblatt MD Library of Georgia Regents University Augusta, co-authored a recent paper:

Ballance, Darra. and Nancy Webb. 2015. For the mouths of babes: nutrition literacy outreach to a child care center. *Journal of Consumer Health on the Internet* March 19(1):1-12.

Bonnie Chojnacki, Assistant Professor of Bibliography and Life and Allied Health Services Librarian at the University of Akron's Science and Technology Library presented in Atlanta, Georgia at Emory University at the Annual Conference of Politics and the Life Sciences. Her presentation was titled "Breast Cancer, Affordable Care, and Politics" and it was presented in October 2014.

Bonnie also had a book review accepted for publication and served as a blind reviewer for *World Medical and Health Policy*, a Wiley journal.

Chojnacki, Bonnie. Review of: *Genomics and Democracy: Towards a 'Lingua Democratica' for the Public Debate on Genomics*. Derkx, Peter and Harry Kunneman, eds. 2013. Amsterdam-New York, NY: Rodopi. 355p. 978-90-420-3719-9. Politics and the Life Sciences. Forthcoming.

David Duggar, MLIS, AHIP, has been promoted to Head of the Liaison Program at the Health Sciences Library of Louisiana State University Health in Shreveport. He has been a reference librarian there for over twenty years. In his new position, David will coordinate the activities of the librarians serving as departmental liaisons.

Howard Fuller, former Chair of DBIO, is now the library director at Whatcom Community College's WCC Library in Bellingham, WA. Previously he was Dean of all the libraries on 12 campuses of Heald College in California for four years.

Last but not least, Janet Weiss, also a former Chair of DBIO, is now Chair of the SLA Pharmaceutical & Health Technology Division. She is currently Associate Director, Scientific Library at Daiichi Sankyo, Inc. in Edison, New Jersey.
