

Minutes of the 2010, 75TH Anniversary, Annual Meeting of the BioMedical & Life Sciences
Division in New Orleans

- Diane Schmidt, DBIO Chair, called the meeting to order.
- The Treasurer's Report from Jonathan Nabe was read & accepted. He counseled discretion, noting that while we had actually made money on the 2009 convention, 2010 would be close. (Note made by Secretary in 2011: As events developed, we also made money in 2010).
- New Business for 2010:
 - All continuing education classes had to be cancelled for reasons of under-enrollment.
 - However, our 75th Anniversary cruise sold out.
 - A motion was put forward and subsequently passed to subdivide the Public Relations and the Web Committee as follows: The Public Relations Committee would stand on its own, as would the Web Committee. The Web Committee would then be divided into two, with Claudia Lascar continuing to have responsibility for design, content & external relations with Inkstain, our designer, and with Monica Kirkwood, in charge of continuous updating.
 - A motion was put forward and passed to acknowledge the services of Carol Lepzelter-Berry in conjunction with our website.
 - A motion was put forward and passed to set up a Leadership Advisory wiki, where officers would make notes of the procedures and best practices they had come across during the course of their terms for the benefit of the next administration.
 - A motion was put forward and passed concerning adjournment.
- Submitted by Tony Stankus, DBIO Secretary, June 13, 2011
